PROJECT NUMBER 2021-2-PT02-KA220-Y0U-000050643

Equal Parenting Erasmus+ Project

We are excited to share the progress that we've made over the last quarter in the Erasmus+ project on Equal Parenting. Your support has been invaluable to us, and we can't thank you enough for being a part of this journey.

Focus Groups with External Experts

We organized focus groups with external experts in the field to evaluate the training content. The feedback has been insightful and will significantly improve the quality of the training we provide.

Training Methodology

We have established a comprehensive framework for our training methodology. This framework will act as a roadmap for the execution and evaluation of the training program.

Bite-Size Learning

One of our most exciting additions is "Bite-Size Learning," which provides educational content in a compact and easily digestible format. Each unit consists of three pieces of content— a picture and a corresponding text that aim to explain the topic clearly and concisely. We've also designed a template for instructional videos, ensuring they remain engaging and informative. These videos will be integrated into the bite-size learning units for youth training on the e-learning platform.

Final Training Program

Last but not least, we're thrilled to announce that the final version of the Equal parenting training program is now available.
